

# Vaudreuil-Soulanges Green Corridor

The goal of the *Protection and sustainable development of the Vaudreuil-Soulanges Green Corridor* project is to **protect and enhance the integrity of important woodlands and natural areas** from Pointe-Fortune to Île Perrot.

## Objectives

- ☑ Increase public knowledge of the natural areas in this forest corridor
- ☑ Work together with local stakeholders to develop and implement an integrated management plan for natural areas
- ☑ Promote voluntary conservation and good forestry practices among private land owners
- ☑ Carry out restoration and enhancement projects
- ☑ Raise public awareness of the importance of natural areas and encourage people to take tangible action to restore and protect them
- ☑ Implement the guidelines of the Vaudreuil-Soulanges *Politique de l'arbre et des boisés*.

## Our Actions

- ☑ Meet and collaborate with local stakeholders to develop a common vision.
- ☑ Draw up a profile of the corridor based on existing biological and socioeconomic data.
- ☑ Carry out inventories of plant and animal species.
- ☑ Target key residents and plan stewardship activities.
- ☑ Meet with and raise awareness among key land owners.

# Vaudreuil-Soulanges Green Corridor

**Conservation: a rewarding investment for our health and the economy**

## Corridor team achievements since 2009

- Over 1,600 hectares characterized and/or inventoried
- Over 30 meetings with land owners
- Censuses of 30 plant or animal species at risk

## Nature-Action Québec

- Non-profit organization
- Founded in 1986
- Takes part in over 100 projects every year in the Montérégie (Mont Rougemont, Mont Yamaska, Contrecoeur)

## Did you know...

Natural areas play many different roles.

- Availability and quality of drinking water
- Reduced risk of flooding and erosion
- Important habitats for plants and animals
- Excellent sites for recreational activities
